PRICE LIST 2022

\$ ₹ AED

air curtain

PRICE LIST 2022

Mitzvah has plethora of models and prices to suit any of your needs. We have different models based on :

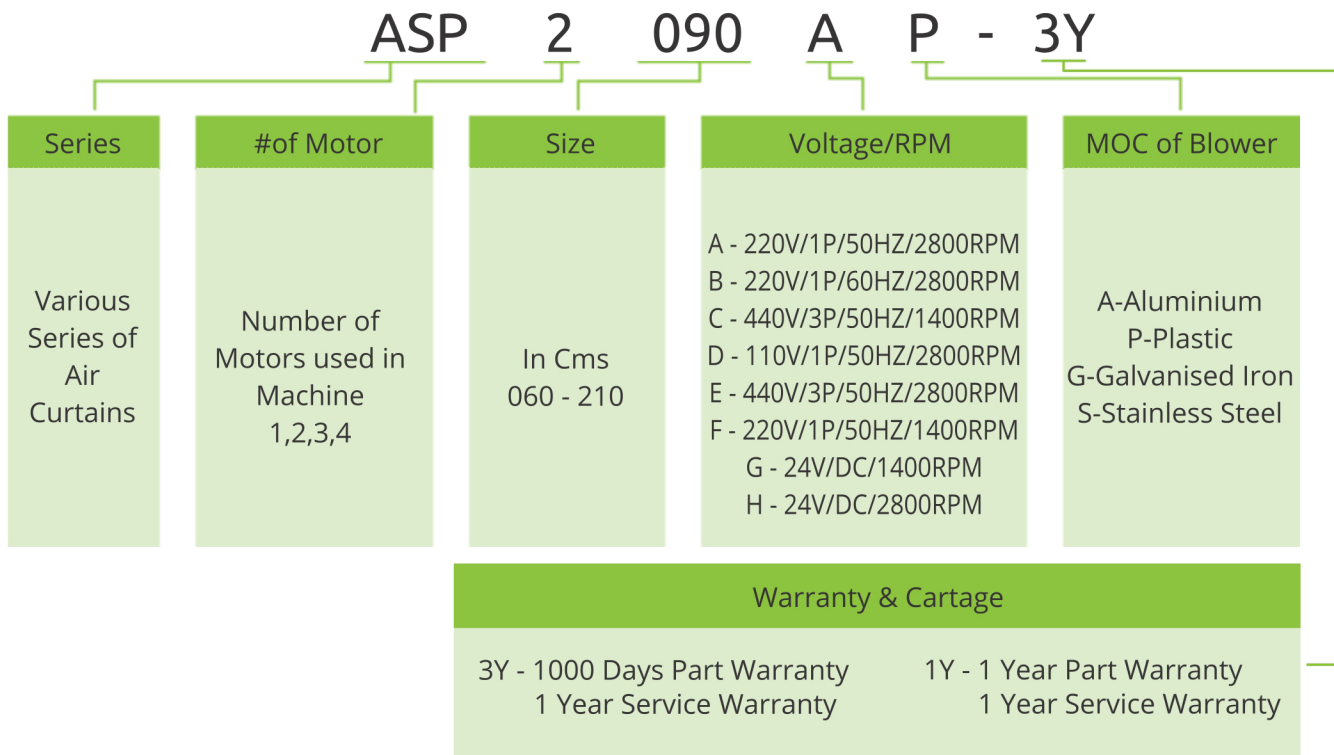

- a) Blower Size
- b) RPM
- c) Material of Construction

You can choose any package as per your need and requirement.

When reading a model first 3 alphabets denotes the series, based on the factors mentioned above and the last 2 alphabets after the hyphen (-) denotes the model based on the following parameters -

- a) Extended Warranty
- b) Cartage

How to read model of Air Curtain

ways air curtain can benefit you.

Dust Proof

Thermal Barrier

Mosquito Proof

Avoid Dust & flies,
enhancing
product Quality

Inhibits dust from
entering, hence saves
manpower to clean

No vision
blockage, Drop
in accidents

 Improves Product Quality	 Saves Manpower	 Drop in factory accidents
 Open Door Policy	 Saves Power	 Lower Maintenance Cost
 Increases Business Efficiency	 Odour Control	 Cash Cow

Open door in Air
conditioned showroom
attract more
customers

Decrease in Duty
cycle & Dust
levels saves on
AC maintenance cost

Increases employee
comfort, increases
business efficiency

Control bad odour
from entering

A perfect cash cow,
which payback in
1 month - 4 months

mitzvah
air curtains

air curtain a cash cow !

Saving per minute : **Rs. 7 /-**
Saving per hour : **Rs. 420 /-** (Rs. 7 X 60 min)
Saving per month : **Rs. 12,600 /-** (Rs. 420 X 30 days)

ROI - 1 month ~ 4 months

Assumption for ROI Calculation

Door size : 8 ft (H) X 4 ft (W)
Temp. Difference : 15°C
Door opening / Day : 60 mins

Using simple mathematics, let's verify;
Here's how-

Energy Calculation

$$E = m C \Delta T$$

m : Mass of Air
C : Specific heat of Air at given Temperature
 ΔT : Temperature Difference

$$m = \text{Density} \times \text{Volume}$$

Density of Air at 40°C = 1.127 Kg/cu. meter
C = Specific Heat = 1.005 KJ / (Kg °C)
 ΔT = Temperature Difference = 15°C
(assuming outside temperature is 40°C and inside is 25°C)

$$\text{Volume} = \text{Area} \times \text{Velocity of Air from Door} \times \text{Time of Opening}$$

Say :-

Door Size = 8ft X 4ft
Velocity = 1 m/s = 200 fpm
Time of Opening = 1 min
Volume = 32 X 200 X 1 = 6400 cu. ft. = 181.22 cu. Meter ----- A

mitzvah
air curtains

air curtain a cash cow !

m = Density X Volume

(from Above A)

= 1.127 Kg/cu. meter X 181.22 cu. Meter

= 204 Kgs

E = m C ΔT

= 204 kgs X 1.005 KJ / (Kg °C) X 15 °C

= 3075.3 KJ = 0.85425 Kwh

Thus :-

In India if Per KWH cost of Power is **Rs 8.10**

Cost of Opening the Door of Size **8ft X 4ft for 1 min is = Rs 6.92**

Cost of Running an Air Curtain of 4 ft = 400W (Input Power) for 1 minute = 6 paise

Rate per Kwh X Time X Power Input

8.10 X 1/60 X 0.4 = 5.4 paise

Net Saving = Rs 6.92 - 0.06 = Rs 6.86 ~ Rs 7

Saving per minute : **Rs. 7 /-**

Saving per Hour : **Rs. 420 /-** (Rs. 7 X 60 min)

Saving per month : **Rs. 12,600 /-** (Rs. 420 X 30 days)

Extended Relationship - Warranty

Mitzvah warrants all its equipments and is there to keep them free of any defect of either workmanship or the material, even after the completion of the warranty tenure. As a manufacturer we will like our customers to put genuine parts and do the service in the prescribed way to get the best result, from the machine, all parts have a unique number and can be ordered separately.

If you want Mitzvah to insure your machines, we have extended warranty plans for the same. The warranty is divided into 2 main categories :-

- a) Part Warranty
- b) Service Warranty

a) Part Warranty insures the machine and all parts for any defects, we will replace the part in warranty period without any questions asked. You just have to send the defective or broken part to the service wearhouse, and then the replacement will be shipped to you, FREE of charge.

b) Service Warranty insures that the machines are serviced time to time and we give you service at the site, for any issue developed from time to time. In service warranty we have the packs of machines which can be bought or refilled online and we get the service done, directly at the site, so that you can ensure smooth running of the machine.

We even have a service team which provides online guidance to your staff, in case you want to service the machine on your own. This training is available free of charge, and you can just call and refer your trouble with the machine number and we will provide a assistance for the same in form of a youtube link in next 24 hours.
